The Center is 450m² big, and is composed of a conference room, 2 rooms for studying, a Beth Hamidrash including a Kodesh library, a chol library with computers, a cafeteria for students and a lounge.

Many activities are available on site : shiourim are held at noon, the evening and Sunday mornings, and a conference each Sunday night, fitness classes, broadcasting of football matches...Other activities are also available outside the center : many trips in France or international trips, dining out...

The main achievements during the last year of activity (main achievements, number of events, number of participants, etc.):

On top of the daily activities, the main achievements are:

- skiing in the French Alpes / December : 90 students
- trip to New-York / January : 48 students
- trip to London / February : 45 students

The evaluation (methodology, results, comparisons with the precedent year, conclusions for the future...):

It's been the first year since the center has been working, so we can't compare with previous years. But the center becomes more successful every month, little by little, more students know about the center. By next year, we hope we can reach 65 students every days at noon, and 400 students coming now and then or regularly within the month.

Provisional guide lines for the advancement of the program in the next year:

We are planning to maintain and develop our current activities (including trips). We are organizing a trip to Israel this summer (100 students), and we are starting to organize the opening of a new center in September, in the nearby town of Aix-en-Provence, where 4 big regional universities are located, and where many young Jewish studying.
