

## Beneficiaries

Dropout youth	<p>Kaima Beerotaim farm is the only youth open facility employer in Emek Hefer that has an educational and personal approach using nature and agriculture as a method. Other programs are youth boarding schools. This method allows us to have the whole family involved and .be a part of the farm</p> <p>We also have interaction with special education schools in the area and the teachers see Kaima as a way to .encourage youth to learn life skills</p>
Community	<p>Beerotaim had been an agricultural area since 1948. It has lost it's goal a long time ago. By having a new vegetable field where people and especially children can visit and feel close to nature and agriculture they take part in every activity that takes place on the farm.</p>
