Number of active participants in the program: 74

Estimated number of impacted participants:   all 74

Give the actually state of the program (where the program stands at the date of the activity report, no more than ten lines):

The Mechina finished its 6<sup>th</sup> year and is proud of having a strong 1<sup>st</sup> and 2<sup>nd</sup> year as well as having for the first time a post-army group who have returned after their 3 year service in the IDF to the program at the Mechina for another year of learning.

The main achievements during the last year of activity (main achievements, number of events, number of participants, etc.):

The Mechina was successful this year especially with opening the post-army program and increasing the number of students in the 1<sup>st</sup> year. The Staff of the Mechina was increased to include counselors for the 1<sup>st</sup> and 2<sup>nd</sup> years as well as a Counseling head who runs the entire extra curriculum program throughout the year.

The evaluation (methodology, results, comparisons with the precedent year, conclusions for the future...):

We are working strongly to enhance our programming and connections to our Alumni. At this point the Mechina is starting to have Alumni who are post army and we feel the importance of staying in contact with them as well as offering programming which will keep this relationship viable and significant. Our goal for the upcoming year is to strengthen this area as well as continuing to bring in more students for the first and second years and to increase our Post-Army program.

Provisional guide lines for the advancement of the program in the next year:

As I mentioned, we want to increase the number of students in the first and second years by 10% as well as increasing the post army program in a similar number. We are working hard on programming for the Alumni and are recruiting staff members to take that role upon themselves.
