Give the actually state of the program (where the program stands at the date of the activity report, no more than ten lines):

The program has finished today its opening year. During the year the program has helped many elderlies in their day-to-day lives who live in Arad. It has created a strong connection between the elderly and youth in the town. This connection is continued beyond the program's compulsory hours of volunteering.

The main achievements during the last year of activity (main achievements, number of events, number of participants, etc.):

18 elderly received help during their day-to-day lives. Furthermore, during the year five connecting events took place during the holidays across the year e.g. Hanukah, Pesach, Israel's Independence Day, Succot and Purim. In all these events the participants of Perach Zahav Matanel events were on average 30-36.

The evaluation (methodology, results, comparisons with the precedent year, conclusions for the future...):

The way in which the program worked during last year has mainly been on the initial connections between the elderly living in Arad. The connections created between the elderly population and the participants is working template for the future of the entire town to make a difference, through connections and social action. We are looking

forward to next year, where we are planning to strengthen and extend the program so that it can have a greater influence on the town.

Provisional guide lines for the advancement of the program in the next year:

We would like to strengthen the connections created between the participants and the elderly. To further involve the municipality in the program. Introduce more events over the upcoming year.
