ACTIVITY REPORT

Program: *Summer and Holidays Activities at the Technoda*

Year:2019

Please present your activity report according to the following lines. The whole rapport will not exceed 2 or 3 pages (as word document).

Name of the Program: Summer and Holidays activities at Technoda

Year of activity: 2019

Name of the report's writer: Mrs. Emily Bernstein Golan

Function of the report's writer: Academic Director

Mail: emily@technoda.org.il

Phone: 04-6333505 ext.122

Give the actually state of the program (where the program stands at the date of the activity report, no more than ten lines):

During the summer vacation of 2019, following the previous years, The Technoda operated a special social and educational activities program open to the underprivileged children of Givat Olga.

These children that took part in the Technoda's summer activities were recommended by schools and by the social authorities. They came to the Technoda for 3 weeks in July, received 2 meals a day, and participated in a unique program such as science, technology and social classes, and cultural activities.

As the summer vacation program of 2019 has ended successfully, our hope is to have a contingency also for the summer of 2020. Activating this program depends solely on donations.

**The main achievements during the last year of activity:
(main achievements, number of events, number of participants, etc.):**

71 children from Givat Olga participated in the 2019 summer activities. During the 3 weeks of activity, the children got to spend their days in a safe environment and were exposed to Science and Technology enrichment classes in a hands on experience such as building models of small planes, becoming a doctor for one day, creating 3D movies, learning of famous Inventions, creating magic, Astronomy and more. On the other days they visited also in a swimming pool and in Amusement Parks.

The evaluation (methodology, results, comparisons with the precedent year, conclusions for the future):

The findings of the evaluation report describe the changes that took place during the program, among children in the educational aspect (knowledge) and the social aspects (enjoyment) in accordance with the program's objectives.
