Year:2020

Please present your activity report according to the following lines. The whole rapport will not exceed 2 or 3 pages (as word document).

Name of the Program: Summer and Holidays activities at Technoda

Year of activity: 2020

Name of the report's writer: Mrs. Emily Bernstein Golan

Function of the report's writer: Academic Director

Mail: emily@technoda.org.il

Phone: 04-6333505 ext.122

Give the actually state of the program (where the program stands at the date of the activity report, no more than ten lines):

During the summer vacation of 2020, despite the corona virus and following the previous years, the Technoda operated special social and educational activities program open to the underprivileged children of Givat Olga.

The children taking part in the Technoda's summer activities were recommended by schools and by the social authorities. This year was different from the others as we received also children from Hillel Yaffe Hospital medical staff as a way to help them overcome this difficult times. The children came to the Technoda for 2 weeks in August, received 2 meals a day, and participated in a unique program with science, technology and social activities. These activities were held in small groups with the permit and cooperation of the Ministry of Health and the Ministry of Education.

As the summer vacation program of 2020 has ended successfully, our hope is to have a contingency also for the next three years. Activating this program depends solely on donations.

The main achievements during the last year of activity:

(main achievements, number of events, number of participants, etc.):

76 children from Givat Olga and Hadera participated in the 2020 summer activities. During the 2 weeks of activity, the children got to spend their days in a safe environment and were exposed to Science and Technology enrichment classes in a hands on experience such as building models of small planes, becoming a doctor for

one day, creating 3D movies, learning of famous inventions, creating magic, Astronomy and more.

The evaluation (methodology, results, comparisons with the precedent year, conclusions for the future):

The findings of the evaluation report describe the changes that took place during the program, among children in the educational aspect (knowledge) and the social aspects (enjoyment) in accordance with the program's objectives.

| The goal of the program | Assessment method | Scores |
|--|--------------------------|--|
| Acquiring of Scientific / Technological capabilities and knowledge | Questionnaires | 83% reported that the Scientific / Technological knowledge improved very much and more in comparison to the beginning of the program |
| Attendance | Checking | 100% Attendance was measured during the program |
| Learning Science | Questionnaires | 69% reported that they extremely enjoyed the learning of Science during the program |
| General Enjoyment | Questionnaires | 72% reported that they extremely enjoyed the program of the summer camp |
