**Give the actual state of the program (where the program stands at the date of the activity report, no more than ten lines):**

2020-2021 has been a complicated year for Hameirim, both from a movement development perspective and from a financial perspective.

The Covid health crisis slowed down the development plan initiated in 2019 and prevented the implementation of several projects envisaged as part of our growth plan. Nevertheless, we have redefined our objectives to meet the challenges of the particular situation and our duty to provide educational and social solutions to our young people confined to their homes.

We have been able to organize Team Activities (mostly by zoom), Mini-camp and summer camp (in 2021)

**The main achievements during the last year of activity (main achievements, number of events, number of participants, etc.):**

In 2020, there were 43 activities (mainly in a zoom and team format) organized (16 in 2019), which is explained by the mobilization of our madrichim who understood the need imposed by the situation to favor activities by teams and cities to respect the constraints but ensure the continuity of their educational action and contact with children.

Then in 2021, we managed to organize a “mini-camp” before Pessach and summer camps in July (see below for more details)

From 24<sup>th</sup> to 27<sup>th</sup> of March 2021, we managed to organize our 1<sup>st</sup> “mini-camp” near Netivot. About 150 young scouts from our movement took part and enjoyed being together again in the friendly atmosphere they like so much.

This past summer (month of July), the Hameirim association managed to organize camps for about 250 children in total, split into different age groups and locations. In Israel, we reached 180 children in summer camp in Carmel for almost 3 weeks. In France, a delegation of 40 young Israeli scouts took part in the EEIF summer camps, and finally, our group of “Perspectives / PIF” (15-16 years old) made a trip to Greece, in coordination with local organisations.

It should be noted that the camps took place each time in a different place in Israel, which allowed besides a discovery of Israel, an impregnation of the movement and its values, and an easier integration for the Olim.

**The evaluation (methodology, results, comparisons with the precedent year, conclusions for the future...):**

For each of our camps, we have had an upstream preparation with the various camp leaders and their respective teams.

During these preparations we established the educational objectives to be achieved and distributed the different roles and responsibilities.

A concluding activity was done on the last day with the children in order to get their feedback and assess the goals achieved vs our objectives.

Finally, a review meeting was also held between the directors and the madrichim team, as well as between the directors and the association's executive committee.

We were able to observe a real satisfaction of the participants and the directors for this year.

The educational objectives were achieved, and we managed to reunite a record number of children.

**Provisional guide lines for the advancement of the program in the next year:**

For 2021-2022 we want to continue with the same development dynamic, while emphasizing the training of madrichim, team leaders and camp director.

In addition, in order to retain our children and further professionalize our animators, we are setting up monthly activities for this year, in a physical format.

In order to reach our objectives, we will be looking at renting some space to host our activities and expand to Tel Aviv, Ashdod and Netanya.
