Estimated number of impacted participants: about 7 -8 students each year.

Give the actually state of the program (where the program stands at the date of the activity report, no more than ten lines): Every year, Marom students whose families are unable to pay the full tuition at the school receive scholarships in the total amount of NIS 200,000.

We are now at the stage where we want to extend the scholarship to students who received a scholarship last year and are entitled to a scholarship extension as well as to give scholarships to our new students who will start studying with us in the academic year 2022/23 and And who are entitled to for a scholarship.

The main achievements during the last year of activity (main achievements, number of events, number of participants, etc.):

Our main achievements this year as a high school are

1. A full high school diploma for each of the 110 students which study at Marom high school.
2. There is no dropout of students at all, between the years (0% dropout).
3. 92 % of our students continue to the military or national service.
4. A huge sense of immense satisfaction and ability of our graduates and their families.
5. All of our target audience comes from students recommendations (we do not advertise the high school at all)
6. every year we can accept 39 new students to the high school We have waiting lists of students who wants to be accepted to our school.

The evaluation (methodology, results, comparisons with the precedent year, conclusions for the future...): This year we emphasis on the acceptance of students from diverse families: family of all kinds, socioeconomic status, geographical areas in which the students live.

So we can find students for single families, families from the LGBT community, from the geographical periphery, and families from a variety of socio-economic backgrounds.

All students as part of their studies are required to volunteer several times a year in order to develop students' skills as contributing citizens as part of their lifestyle.

Provisional guide lines for the advancement of the program in the next year:

Next year our main mission is to assist the 40 new 10th grade students and help them get into the learning and education track in marom high school.

Our two unique majors studies in the Green Village high school are Diplomatic English and Art.

Students of these majors regularly wins prizes in national competitions of these majors, and we We will continue to amend these majors studies for our student.

We, as an association, are also opening a new school in the Hefer Valley - a six-year school, from seventh grade to twelfth grade. Our mission is to bring this school to a level of outstanding school similar to the high school in the Kfar Hayark.
