

Activity Report Matruz Workshop, 24-25.02.2025

As part of the project to promote cultural relations between Israel and Morocco, and to explore key centers of cultural activity, a joint workshop was held for artists from both countries, focusing on Andalusian music. This musical tradition, which developed among both Jews and Arabs in Morocco, traces its roots to Spain and represents a shared cultural heritage.

The workshop brought together 12 artists from Morocco and 12 from Israel. The joint activity took place over two days under the auspices of the Lod Municipality.
