Testimonies of the participants
Ma'alah Child Development Center in jerusalem

1) A mother whose husband cannot work due to illness

"I would like to express my deep gratitude for the assistance we received for our son's vision-focus examination.
For a long time, I have been the sole provider for our home, due to my husband's complex medical condition, and the financial burden of supporting our six children rests entirely on me. When we were told that our son needed a comprehensive eye-focus evaluation because of his reading difficulties and challenges in class, I truly did not know how I would manage it.
Thanks to your support, he underwent a thorough examination, received a professional eyeglass fitting, and since then his condition has improved remarkably. He now comes home from school with joy.
Thank you for your generosity, your attentiveness, and your willingness to help families like ours.
Sincerely,
The B. Family"

2) Young parents with heavy financial strain

"We would like to thank you sincerely for the help we received for our son's eye examination.
We are a young couple with several small children and significant financial pressures. Despite the difficulties, we want to give our children the proper care they need. After frequent complaints of headaches and declining reading ability, we were advised to schedule a comprehensive exam—but the cost was beyond our means.
We are deeply grateful that you enabled us to carry out the examination quickly and professionally, and for the eyeglass fitting that helped him immediately. We already see a meaningful improvement in his functioning.
May you be blessed for your important work.
With great respect,
The M. Family"

3) After a difficult period of debt repayment

"I wish to thank you wholeheartedly for the assistance I received.
After a complicated financial period during which we accumulated significant debts, I am making great efforts to stabilize our home. At the same time, I could not neglect the essential care my son needed, as he struggled with eye-focus issues affecting his reading and his self-confidence.
Thanks to your help, he underwent an accurate examination and received properly fitted glasses. His reading has become much more fluent and he tires far less.
Thank you for your sensitivity and for being there for us at the right moment.
Sincerely,
N."

4) A large family with high care demands

"Our heartfelt thanks for the support we received for our daughter's eye examination.
As a large family, we often face difficult choices between essential treatments because of financial constraints. When we realized that our daughter was struggling with reading and needed a full evaluation, we feared we would not be able to provide it in time.

Thanks to your kind assistance, she received a complete examination and eyeglasses that made a tremendous difference—her reading has improved, she is less frustrated, and she has returned to enjoying her studies.
May you be strengthened for your meaningful work and for helping so many families.
With appreciation,
The R. Family"

5) **A single mother carrying the burden alone**

"I would like to thank you for the help I received for my son's vision-focus examination.
As a single mother, every medical expense is a significant challenge. My son struggled with reading and often felt exhausted during class, but I could not afford the recommended examination.
When I turned to you, I was met with warmth, dignity, and quick assistance. Because of your help, he received a professional evaluation and glasses that have made a tremendous difference. His reading has improved, and he is progressing academically.
Thank you for your kindness and for supporting families facing complex circumstances.
Sincerely,
A."

6) **A family with heavy medical expenses for the father**

"We wish to express our deep appreciation for the assistance you provided for our daughter's eye examination.
My husband is coping with a serious medical condition and requires ongoing treatment. The many expenses have placed a great strain on our family, and every additional medical need became a challenge. When we learned that our daughter needed a focus-vision evaluation due to reading difficulties and eye strain, we felt unable to afford it.
Thanks to you, she underwent a complete and professional examination, received properly fitted glasses, and we already see a significant improvement—her reading flows more easily, she is calmer, and she participates more actively in class.
Thank you for your generosity and for supporting families during difficult times.
Sincerely,
The T. Family"
